

Dulanjali Manathunga

IT Undergraduate | Full-Stack Developer

Profile

Motivated IT undergraduate with hands-on experience in MERN stack development, REST API development, and full-stack web applications. Skilled in React.js, Node.js, Express.js, MongoDB, and GitHub. Passionate about problem solving, learning modern technologies, and building user-friendly software solutions. Seeking an internship opportunity to apply my technical skills and gain industry experience.

Education

● BSc (Hons) in Information Technology

Nov 2023- Present
SLIIT Malabe, Sri Lanka

● Advanced level – Bio stream 2022

Gothami Balika Vidyalyaya colombo 10
2019-2022

Chemistry	C
Biology	S
Physics	S

Certificates

● MongoDB basics

Certification learning paths
2026 April - May

● Linux Basics

FreeCodeCamp
2026 March

● Diploma in Psychology and Counselling

IMBS Campus - Gampaha
Mar 2022 - Mar 2023

● Diploma in English Language

British way English academy Kiribathgoda
Jan 2019 - April 2019

● The Certificate Course in English Language

Institute of Human Resource Advancement
University Of Colombo
June 2022 - Dec 2022

Technical Skills

- MERN Stack Development
- React.js
- Node.js & Express.js
- MongoDB
- JavaScript & TypeScript
- REST API Development
- Spring Boot
- Kotlin & Android Development
- Playwright Automation Testing
- Git & GitHub
- HTML, CSS & Tailwind CSS
- MySQL & SQLite

Soft Skills

- Problem Solving
- Team Collaboration
- Communication Skills
- Critical Thinking
- Time Management
- Adaptability
- Leadership
- Fast Learning
- Creativity
- Attention to Detail

Projects

● Uni Learn HUB+

MERN Stack | MongoDB | Express.js | React.js | Node.js

Github

- Developed a university learning resource platform using the MERN stack.
- Implemented features for sharing notes, papers, and educational resources.
- Built responsive frontend interfaces and backend API integrations.
- Improved collaboration and accessibility for students through centralized resources.

● Test Automation using Playwright

Playwright | TypeScript | Node.js

Github

- Developed automated UI and functional test scenarios for a real-time web application.
- Implemented end-to-end testing workflows using Playwright and TypeScript.
- Improved testing efficiency and application reliability through automation.

● Wellness Mobile Tracking Application

Kotlin | SQLite | Android Studio

Wellness App

- Developed an Android application to track wellness activities such as physical activity, mood, sleep, and health habits.
- Implemented local database management using SQLite.
- Designed user-friendly mobile interfaces using Android Studio and Kotlin.
- Improved user experience through organized wellness tracking features.

● Smart Campus

Spring Boot | MongoDB | Java

Github

- Developed a smart university management system as a group project using Spring Boot and MongoDB.
- Implemented features for bookings, support tickets, and notifications management.
- Built backend functionalities and integrated database operations.
- Improved usability through organized dashboard interfaces and responsive design.
